

# ARKANSAS

STATE POPULATION

**2,977,944**

BLACK POPULATION

**486,996**

HISPANIC POPULATION

**213,246**

ESTIMATED POPULATION UNDERCOUNT\*

**17,900 BLACK  
9,000 HISPANIC**

ESTIMATED \$\$\$ LOST DUE TO POPULATION UNDERCOUNT\*\*

**\$98,271,000 BLACK  
\$49,410,000 HISPANIC**

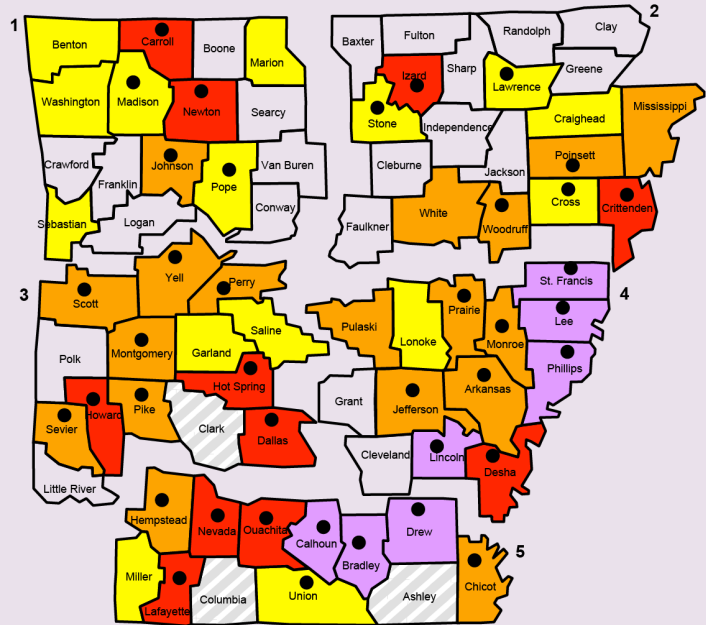

\*Estimates are based on the research report "Assessing Miscounts in the 2020 Census" written by the Urban Institute

\*\*Based on George Washington University's "Counting for Dollars 2020" per capita estimates and Urban Institute's "Assessing Miscounts in the 2020 Census"

## #BLACKAMERICACOUNTS

Black America Counts is an initiative with the Congressional Black Caucus Foundation Inc., and Fair Count. Our partnership aims to identify hard-to-count (HTC) communities across the nation in order to guide outreach and mobilization efforts to help increase census turn out.

PERCENT OF HTC NEIGHBORHOODS

**Hard to Count Communities:**  
An HTC community is defined as a population at risk of being undercounted due to low return rates for the self-response questionnaire sent from the US Census Bureau and other factors.

**Shaded counties on this map represent the percentage of the population that is hard to count.**

# ACT NOW!

## GET INVOLVED WITH THE U.S. 2020 CENSUS

Partners are critical to the success of all U.S. Census Bureau surveys and censuses. Check out these resources to ensure a complete count in your community.
